EDITORIAL

THE FUTURE OF FRATERNITIES

As the movie "Star Wars" breaks all records at the box offices throughout America, this futuristic scientific fiction should make us think about our future and the future of fraternities.

Why should "the future" be of concern to a fraternity? The answer is easy—the population. The size of the nation's college-age population will soon start declining because of the decreasing fertility rates in the 1960's. The 18 to 21 year old population is expected to reach a high of 17.1 million in 1979. This is the traditional age group of undergraduates. It will decline to above 15.4 million in 1985 and to about 14.5 million in 1990. This according to the U.S. Bureau of Census. That means that college enrollments are expected to peak at about 17.1 million in 1979 and *decline* thereafter.

As college enrollments decline, the total number of perspective fraternity members will also decline. Although one may say that there may be no direct correlation between total university enrollments to levels in certain professional schools, certainly, no one can deny the decreased availability of federal funds such as capitation. This has and will have a direct effect on enrollments in our schools of pharmacy. So the existing pharmacy fraternities will be vying for members from a smaller total student body.

Editor
Norm Kobayashi

The implications for the future is obvious. We must strive to strengthen our present collegiate and graduate ranks *now* while we have the potential membership available. This would allow us to peak our strength at the peak position to take on the challenges of the future. But we must start now! Our attention has been focused on our centennial in 1979, but our sights must not stop there. We must look to the future.

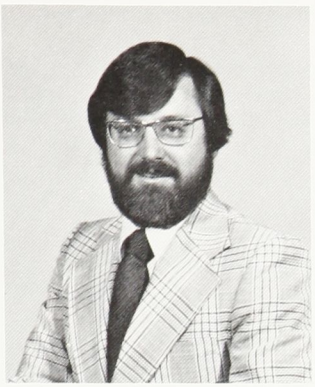
FROM THE DESK OF

THE GRAND REGENT,

WILLIAM A. FITZPATRICK



Another year is slowly coming to an end and the past will become history. Some of you are starting another academic year in the profession of pharmacy and others who have fulfilled their academic responsibilities are practicing the profession of pharmacy as a member of the medical health team.

". . .establish a strong image. . ."

One of our greatest needs of Kappa Psi is to establish a strong image, both locally and nationally. Kappa Psi, like other national fraternities if they are to survive, could participate in programs that benefit the needy, the handicapped and the aged or the incapacitated, and thereby create a positive image with the public and undoubtedly favor publicity from the news media. The image of pharmacy has to be improved to the consumers and Kappa Psi can help this by our strong involvement and sincere interest by promoting our participation as a member of the medical health team. I would like to see all of our chapters strive to improve our image by participating in worthwhile projects.

Pharmacy is experiencing some very serious problems, due to government involvement, unions, third-party pay and outsiders dictating our policy. We in Kappa Psi have the ability and the numbers to make an impact on the image of pharmacy. Let's all in the future work together and strive to command the respect we are entitled to. I believe everyone will agree that our ability and knowledge is being ignored and discounted. Persistence and involvement are the only ways to overcome this.

". . .present situation of your fraternity. . ."

I would like to comment briefly on the present situation of your fraternity, especially on the national level. Over the years your Executive Committee and the national office have made sound business decisions in order to keep our fraternity progressing forward in the best interest of its membership. Times are changing in the fraternity world. Fraternal organizations are becoming more business minded and the memberships are making more demands on their national office and national officers for programs and involvement in areas that will affect their future. We realize the members of Kappa Psi seek a voice in the profession of pharmacy and we are trying to do the best to our ability to promote our profession and build the fraternal spirit in our membership. A major problem that we are facing is that we are trying to run a 1970 organization on a 1950-60 budget. Our only source of income to operate this fraternity comes from the collegiates and graduate members. The collegiate members can assist us by building their membership with good sound Kappa Psi members. Graduate members can participate by giving serious thought in joining our Kappa Psi Century Club and by contributing to the voluntary graduate dues program that we mail out annually. These dues are only $10.00 per year and it is voluntary, but it sure does add to our budget and helps us fulfill programs that we institute for our membership. Another area where the graduates can participate is helping us update our mailing list. Over the years we have lost contact with a large number of our graduate members. If any Kappa Psi member knows of any other member who has lost contact with us and is not receiving our official publication, *The Mask*, or is not participating in the voluntary graduate dues program, please forward his name and address to the Central Office so that we can get in touch with him. It is important that we expand our exposure to our membership and inform them of our upcoming Centennial Anniversary that is to be held in Scottsdale, Arizona in 1979.

The Central Office is working very hard in getting our Centennial celebration plans off the ground and committees are functioning and have been in communication with our Executive Secretary. We welcome your thoughts and input in helping us plan for this most historical event. Remember Kappa Psi has a membership in excess of 45,000, and we are the largest pharmaceutical fraternity in the United States; and the third largest pharmacy organization in the United States. Why don't you join us and be a part of our planning for our Centennial Anniversary in 1979.

Our editor of *The Mask*, Brother Kobayashi, is doing an excellent job in publishing our official magazine, but he informs me he is in need of input from our membership. I strongly urge all collegiate and graduate chapters and members to correspond with our editor and forward to him any information they so feel important to our members and the fraternity. *The Mask* is your magazine and we strongly need your input. Please give serious consideration to participating in our national publication and forwarding information concerning any special events or programs that you are involved in on a local level. We would like to know what our membership is doing or what they have done or have accomplished. Any information is welcome and will be greatly appreciated by our editor.

In closing I would again like to comment on our profession of pharmacy. People outside our profession are educating the public with misleading information. The image of pharmacy has gone through many changes in the eyes of the consumer. All of a sudden everyone has become an authority of the pharmacy profession. Just look around and notice who the people are listening to concerning their health needs. Individuals with much exposure have labeled our profession as a consumer "rip-off."

Our profession is increasing rapidly in numbers but I sincerely wonder about the QUALITY.

I encourage all members of Kappa Psi to be proud of their profession of pharmacy and fight hard for its progress. Speak out and be heard and get involved. Help try to remove the monetary stigma surrounding our profession. We are an essential member of the medical health team. Our knowledge and services are needed. It is up to us as professional pharmacists to properly educate everyone including the so-called "experts" about the professional role we offer to promote quality health care to the consumer.

". . .the largest pharmaceutical fraternity in the U.S. . ."

Brothers in Kappa Psi, be proud that you are a member of the largest pharmaceutical fraternity in the United States and also be very proud that you are a professional pharmacist. Promote your professional affiliation and membership by becoming "INVOLVED."

Fraternally,

William A. Fitzpatrick
Grand Regent

KAPPA PSI CENTURY CLUB

In 1979 Kappa Psi, the largest and oldest professional pharmaceutical fraternity, will be celebrating its 100th anniversary. To commemorate this occasion a Kappa Psi Century Club has been established.

Twenty-five percent of the contributions will be utilized to fund the centennial functions. These will include historical marker ceremonies, a commemorative medallion, special recognition for members of the Golden Mortar, the Centennial Grand Council Convention and, hopefully, a postal stamp commemorative issue. The remaining 75 percent of the contributions will be placed in a long term limited access fund with the interest to be placed in the general fund to further fraternity operations.

Any Kappa Psi Brother is eligible and may become a member of this unique club receiving a certificate, a 10 k. gold pin and national recognition in *The Mask* by contributing $100.00.

Contributions should be sent to Dr. Dewey D. Garner, Chairman, Century Club Committee, School of Pharmacy, University of Mississippi 38677. Checks should be made payable to Kappa Psi Century Club.

Currently there are 34 individual and chapter members.

The Fraternity gratefully recognizes these Century Club members:

John Atkinson, Jr. (Theta)
Donald G. Floriddia (Mu)
Robert Martini (Xi)
Douglas A. Driscoll (Pi)
Victor T. Johnson (Pi)
Glen J. Sperandio (Pi)
Ted Gladson (Chi)

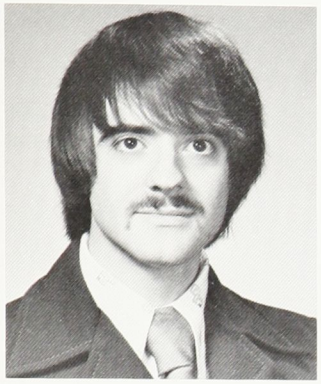
The Fraternity Welcomes the following New Member:
Gregory R. Oris (Gamma Pi)

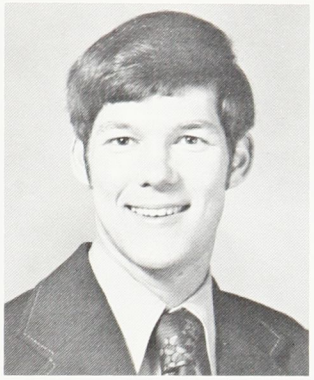
1977 GRAND COUNCIL SCHOLARSHIP KEY RECIPIENTS

These Kappa Psi Brothers are being honored for graduating with First Honors or stood highest in scholarship in the entire class of graduates of their College or School of Pharmacy.



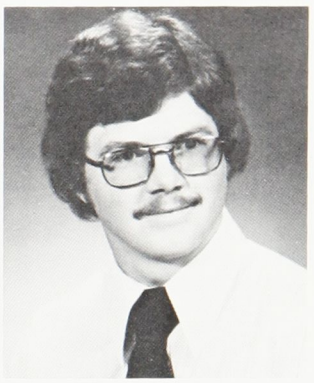
EUGENE N. BUSH
(BETA KAPPA)

Address: 918 Rita Drive, Pittsburgh, Pennsylvania 15221
Date and Place of Birth: April 14, 1952 Mckeesport, Pennsylvania
High School and Year of Graduation: Churchill Area High School, 1970
Principal High School Activities: Audio-Visual Club, Science Club
College(s) Attended before Pharmacy School: The Pennsylvania State University
Pharmacy School Attended: University of Pittsburgh School of Pharmacy
Date of Graduation: April 24, 1977
Honor Fraternity and Society Membership: Rho Chi
Social Fraternity: None
Other Membership: Student APhA, Western Pennsylvania Society of Hospital Pharmacists Pennsylvania Pharmaceutical Association
Honors and Awards: University Scholar, Lilly Achievement Award, James H. Beal Memorial Scholarship, Galen Award in Pharmacology, and Stadtlander Pharmacy Award
Miscellaneous Activities: Camping, Photography, and Electronics; played JV Hockey and belonged to outdoors club; also writer and feature editor for the PITT CAPSULE
Military Service (Branch and Highest Rank): None
Plans for the Future: Graduate Study and Research in Pharmacology



WILLIAM C. GUENTHER, JR.
(BETA CHI)

Address: Mounted Route, Box 440, Peru, Illinois
Date and Place of Birth: October 17, 1954, Peru, Illinois
High School and Year of Graduation: St. Bede Academy, 1972
Principal High School Activities: Athletics, Band, Yearbook Staff
College(s) Attended before Pharmacy School: None
Pharmacy School Attended: Drake University College of Pharmacy
Date of Graduation: Dec. 21, 1976
Honor Fraternity and Society Membership: Rho Chi Pharmaceutical Honor Society; President of Alpha Sigma Chapter of Rho Chi - Drake University
Social Fraternity: None
Other Membership: Student Senator, Dean's Council, Educational Service Committee
Honors and Awards: John Deatheridge Outstanding Pledge Award; Drake President's Scholastic List
Miscellaneous Activities: Intramural Sports, Hypertension Screening, Venereal Disease Talks, Cardiopulmonary Resuscitation Trainer, Diabetis Screening, Poison Prevention Talks
Military Service (Branch and Highest Rank): None
Plans for the Future: attending the University of Iowa Medical School



STEPHEN W. HARRIS
(GAMMA XI)

Address: 16 Brogan Street, Anderson, South Carolina
Date and Place of Birth: November 20, 1953, Anderson Memorial Hospital, Anderson, South Carolina
High School and Year of Graduation: Ware Shoals High, 1972
Principal High School Activities: Aspirants Club, Science Club, Beta Club, French Club, Student Council, Football, Baseball, National Honor Society, Fellowship of Christian Athletes, Annual Staff
College(s) Attended before Pharmacy School: None
Pharmacy School Attended: University of South Carolina College of Pharmacy
Date of Graduation: December 31, 1976
Honor Fraternity and Society Membership: Phi Eta Sigma, Rho Chi, Phi Beta Kappa
Social Fraternity: None
Other Membership: Kappa Psi Pharmaceutical Fraternity, Student APhA, APhA, ASHP
Honors and Awards: Dean's List, President's Honor Roll, Eli Lilly Award
Miscellaneous Activities: Member of Student-Faculty Liaison Committee at College of Pharmacy
Military Service (Branch and Highest Rank): None
Plans for the Future: I am presently an intern at Anderson Memorial Hospital Pharmacy. I hope to be licensed in October, and plan to continue in hospital pharmacy practice.

NATIONAL SCHOLARSHIP AWARD

The National Scholarship Award was given this year to **Beta Epsilon Chapter at University of Pittsburgh.** This award is given to the chapter that has the highest grade point average based on their membership and their school's grading system. The calculations are based on the grades achieved during the Spring and Winter semesters. This award symbolizes the chapter's achievement for encouraging, inspiring and achieving outstanding scholarship.

1977 SCHOLARSHIP HONORS CERTIFICATE RECIPIENTS

The following Brothers have attained a grade point average of three or the equivalent B grade during their fourth or fifth academic year.

ON SCHOLARSHIP

Once again, it is time to pay tribute, as we do annually, to those men of Kappa Psi who have achieved academic excellence and recognition in their respective institutions of learning during the past year. At such a time it is well to take a moment to reflect on the concept of scholarship, the scholar and the responsibilities of professionals to seek out new knowledge.

One definition of scholar which is found in *Webster's Third New International Dictionary* (unabridged) is noteworthy: "...a learned person... one who has the attitudes (as curiosity, perseverance, learning)...." Note that no academic grades criteria are set forth; rather *attitudes* are stressed.

The era in which we live has been characterized by an information and knowledge proliferation or explosion in a variety of fields and disciplines, including those related to health sciences and their application to improved patient care. Pharmacy, of course, has been a major contributor to these advances. These discoveries and innovations did not just happen, however. Each was the result of some person's "curiosity, perseverance, initiative, originality, integrity" coming to bear on that individual's interest area. Each professional has an obligation to work toward developing new knowledge and, above all, keeping informed of those developments of others which affect his role and practice.

Judicial determinations have been made in a number of jurisdictions throughout the nation which underscore the need for pharmacists particularly to keep abreast of innovations and applications of expanding knowledge to patient care. Each pharmacist then, as each pharmacy student, must be a scholar, dedicated to exploring new avenues of improving therapy as well as being informed of the innovations of others. The means and mechanics for doing so are well known to all... continuing education is a process of continuous education.

For the Kappa Psi man in particular, dedicated to INDUSTRY and HIGH IDEALS, this type of activity is only natural. It is encouraged. The profession and all of mankind will benefit in the long run.

To all of our Brothers who have excelled this year in the quest for knowledge as pharmacy students, our sincere and deepest congratulations! We look forward to your continued leadership in the years to come.

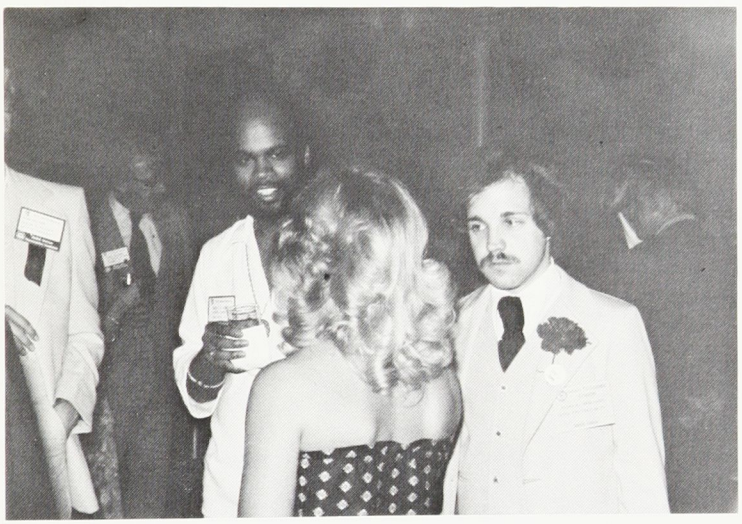
Fraternally,

Norman A. Campbell
Chairman Scholarship Committee

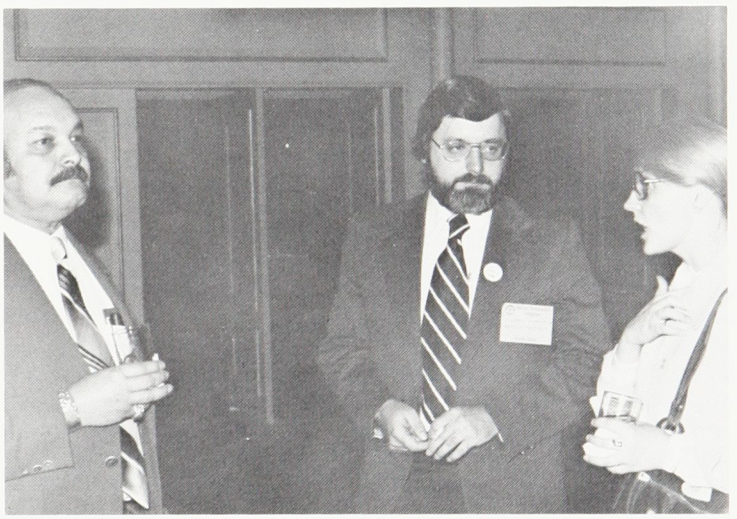
AMERICAN PHARMACEUTICAL ASSOCIATION ANNUAL MEETING
MAY 14 - 19 1977

Dr. Floriddia (Mu) and Wayne Marquardt (Eta) welcome delegates to the Kappa Psi Booth.

(L to R) Collegiate Member Ken Monroe (Mu), Grand Ritualist Larry Slater (Gamma Theta), First Grand Vice-Regent Dewey Garner (Beta Rho), Grand Regent William Fitzpatrick (Gamma Pi).



Cedric Jones (Pacific Graduate) left, along with Wayne Marquardt (Eta) talk with one of the students at the Kappa Psi Reception.



Dean Patrick Wells (Gamma Epsilon), Second Grand Vice-Regent, and Grand Regent Fitzpatrick (Gamma Pi) listen to a young lady during the Reception.

APhA ANNUAL MEETING

Over 500 collegiate and graduate brothers from virtually every chapter attended the Annual Reception at the American Pharmaceutical Association's 124th annual meeting in New York City on Sunday, May 15, 1977.

The reception is sponsored by Kappa Psi Pharmaceutical Fraternity, and was held in the posh Trianon Ballroom of the New York Hilton Hotel. In addition to the refreshments which were served, music was provided by a pianist and hosts for the evening were the Grand Officers: William A. Fitzpatrick, Dewey D. Garner, Patrick R. Wells, Joseph Miletta, Leonard L. Nager, Larry Lee Slater and Jerome P. Delaney. Also present from the central office was Donald G. Floriddia, executive secretary.

The two hour event allowed those in attendance ample time to renew old acquaintances and meet the newly elected grand officers. A mixture of both collegiate and graduate brothers were able to enjoy the evening and look forward to seeing everyone at the Kappa Psi Reception at the 125th Annual Meeting of the American Pharmaceutical Association on May 14, 1978, in Montreal, Quebec, Canada.

Dr. Benjamin Hershenson (Mu), left, talks with past Editor of The Mask Fr. Frank Facione (Mu Omicron Pi).

MU CHAPTER
MASSACHUSETTS COLLEGE OF PHARMACY

Greetings to all our Kappa Psi Brothers. We here at Mu Chapter hope that the 1977-78 school year proves to be as exciting for you as we hope it to be for us.

Last spring we elected our new executive officers. These members are:

Regent ..... Ken Monroe
Vice Regent ..... Walter Douglass
Treasurer ..... Robert Kevorkian
Social Affairs Chairman .. Lee Ohmart
Secretary ..... Tim Beaulac
Historian ..... Michael Lamson
Co Op Chairman ..... Jeff Salzberg
Sergeant-at-Arms ..... Cap Koval
Chaplain ..... Michael Farris
Prof. Affairs Chairman ... Michael Manning
Judiciary Comm. ChairmanCave Callahan

The Executive committee had two meetings at the school this summer. Bob Kevorkian has proposed many functions and other fund raising projects for the upcoming year. This includes several parties and raffles, with prizes varying from your average every day booze prize to a free trip to sunny Bermuda in the winter months. Also scheduled in the fall is a Casino night to be held at MCP.

Professionally, for the month of September, Mu Chapter will be concurrently involved with the Red Cross in holding a blood drive at the school. As like last year, we look forward to an incredible turnout of volunteers from the school in order to augment their always depleting supply of blood. Later on in the fall the brothers of Mu Chapter will also be involved with hypertension screening, poison prevention and drug abuse.

For the first time at MCP, we plan to set up a "Kappa Psi Bookstore," which can be utilized by the whole school. We plan to sell such things as nametags, T-shirts, notebooks etc... at a big savings for all students, as well as various types of KY paraphernalia for the brothers as well. Brother Jeff Salzberg is in charge of our store which we hope will grow with increased support from the school.

In any event we at Mu Chapter have our work cut out for us this year. It should be fun. We wish all our brothers a prosperous and successful year.

Fraternally,

Michael Lamson
Historian

PI CHAPTER
PURDUE UNIVERSITY

Much has happened at Pi Chapter in 1977. At the end of the academic year, we had achieved most of the objectives we established at the start of the year.

The All-Pharmacy Golf Tournament was held with nearly 100 contestants. The scores ranged from 155 to 75. Our 18-hole tournament lasted most of the day and the weather cooperated beautifully. As the day progressed, a camera crew toured the course taking memorable movies and stills of the golfers. When it was all said and done, the winning net score was a 59 followed by two 60's and a 64. The 59 was carded by a young woman in her second year of Pharmacy School. She had never played before in her life! We had explained before the turnament that the handicap we were using would allow a non-golfer the same chance to win as someone who plays a great deal. This idea drew a lot of students who had never played at all or who seldom played. The best gross score, 75, was turned in by yours truly. This was followed by two 76's and an 80. The competition was very close all through the tournament. The day was topped off by al All-Pharmacy party held at the Mulberry Conservation club. The suds flowed free, the music was loud, and a good time was had by all.

Among other things, we sponsored a Drug Fair at The School of Pharmacy. Representatives from 18 pharmaceutical companies set tables along the first floor hallway in the Pharmacy Building and were available for questions all day. Students asked questions and were given explanations and data about particular pharmaceutical products. It was an overall success, and we plan to make it an annual event.

Our Spring Banquet, held at the Purdue Memorial Union, was the culmination of an extremely successful Spring Semester. A good dinner of filet mignon and seafood began the evening. A short period of presentation of awards and a few words from Dr. Ken Kirk followed the dinner. Afterwards, a punch tasting party topped off the evening. A number of different concoctions were inbibed.

This summer a number of outings were attended by Kappa Psi members. A weekend was spent at King's Island in Cincinnati, Ohio. There was a fishing trip to Waveland Lake in Central Indiana, and a sailing outing to the Salamonie Reservoir in Northeastern Indiana.

This fall the major project will be, of course, the pledge program. A picnic is planned to acquaint prospective pledges with what Kappa Psi is all about.

This year we are running a local brother for province office. The conclave is being held at the University of Wisconsin at Madison, and a number of us plan to attend.

We are looking forward to another exciting year here at Purdue and wish to best of luck and a prosperous year to all our brothers around the country.

Fraternally,

Marty Herrell
Historian

UPSILON CHAPTER
UNIVERSITY OF KENTUCKY

Here the brothers are preparing for our annual Fall rush festivities. In addition to beer blasts, the brothers will entertain their guests by providing tickets and rides to a Reds ballgame in nearby Cincinnati. We also have our annual Lampoon planned, the night when the Upsilon Chapter gives the faculty their much needed medicine.

Last May, six of our brothers, Dennis Williams, Mike Boyd, Greg Aldridge, Ted Cummings, Labe Young and Bill Miracle, were among the 20 Kentucky students who attended the National SAPhA convention in New York City. The delegation was led by two members of our chapter: Bill Miracle, the President of the Kentucky SAPhA, and Labe Young, the Delegate to the Convention. Both Miracle and Young were selected to National committee posts: Miracle as committee member of the Policy Committee of Professional Affairs and Young as Chairman of the Policy Committee of Public Affairs.

In social news, our Regent Rusty May is to be married to Sherry Hauser on August 20 in Pittsburg, Pennsylvania. We wish both of these Class of '78 members the best of luck and congratulations for the coming years.

As the summer draws near a close, we hope that all of you have had a fine time for the last three months!

Fraternally yours,

Labe Young
Historian

P.S. May the force be with you!

BETA GAMMA
UNIVERSITY OF CALIFORNIA

Beta Gamma recently had its election of new officers before school was out in June. The new officers are:

Regent ..... Gail Gatterer
Vice-Regent ..... Steve Macres
Secretary-Treasurer ..... Will Smalley
Pledge Master ..... Carol Colvin
Sergeant-of-Arms ..... John Hernandez
Historian ..... Joy Wolff
Social Chairman..... Alan Tani
Grand Wasir ..... Sam White

Under our new officers, we are planning an orientation folder for the incoming students with lists of restaurants, bus schedules, places to see in San Francisco, and some drug company freebees. We are also planning the Third Annual Soup Bowl during the second week of school. We will serve soup and chili while the Monday Night Football game serves as entertainment. We are also planning to have CPR classes besides a party as our main projects for this fall.

This summer, one of our members, Kathy Healey just finished a 7 minute, 16 mm color with sound movie which tells the consumer what a clinical pharmacist does and can do.

Joy Wolff has been working at Syntex Laboratories as a pharmacy intern this summer. She has been rotating through different areas of the company to see what really goes into the making of a drug. While she has been there she has run into Norm Kobayashi, Cedric Jones, and Walt Johnson, all Kappa Psi alumni.

With the new interest in the Beta Gamma Chapter at the University of California, we would like to extend a welcome to all members and alumni to stop by the house and share ideas and projects.

Fraternally,

Joy Wolff
Historian

BETA OMEGA
TEMPLE UNIVERSITY

The 1976-77 year has been a great year for the brothers of Beta Omega. We would like to welcome our new brothers: Bill Arcurie, Brian Baker, Al Baron, Mike Flynn, Bob Golden, Bob Gosner, Charlie Harkins, Mike Horvath, Keith Karas, George Kofel, Bob Perotti, Mike Plishka, Phil Pollarine, Bob Smith, and Robin Walbert. We would like to thank our past officers for the fine job they have done this past year.

Congratulations are wished to the new officers;

Regent ..... Bob Viercinski
Vice-Regent ..... Mike Voutsas
Treasurer ..... Bob Gosner
Secretary ..... Dan Crerand
Chaplain ..... Bob Golden
Historian ..... Dave Ropp

With the help of our alumni, we were able to burn the mortgage on our fraternity house this spring.

We wish all Kappa Psi brothers good fortune in the upcoming year.

Fraternally,

Dave Ropp
Historian

GAMMA GAMMA CHAPTER
UNIVERSITY OF TEXAS

The Gamma Gamma Chapter has been extremely active during the 1977 spring and summer semesters. In the spring we ended our intramural basketball competition with an exciting overtime win over PDC. We also participated in the summer intramural softball competition and ended up with a well earned second place finish.

On April 16, we held our Annual KY Casino Night at which we also raffled off a $295 class ring. This event was highly successful as it offered an opportunity for everyone to "gamble" their frustrations away. The next weekend we had our Spring Formal at the beautiful Onion Creek Country Club, thanks to the sponsorship by U.T. Athletic Director and past Head Football Coach, Darrell Royal.

Early in May, we had our Kappa Psi Senior Picnic at the Austin City Park. This event ended up with all graduating seniors (and most of the rest of us) getting thrown into Lake Austin.

This summer we had a very productive rush smoker with nine College of Pharmacy men deciding to pledge our chapter. We are all looking forward to initiating them soon. Also in June, we had a Graduate-Active Barbeque at City Park. Many graduate members from around the state attended this festive occasion where fun was had by all.

For one of our recent professional projects, we sponsored a booth on alcoholism at the U.T. Health Fair at the U.T. Academic Center. In continuing our history of professionalism, several of our members participated in the Texas Pharmaceutical Association Convention that was held in Waco in late July. Presently we are planning our participation in the fund raising drive for the Muscular Dystrophy Association. We also plan to participate in the local Jerry Lewis Telethon for Muscular Dystrophy.

The brothers of Gamma Gamma continue to be very active in the College of Pharmacy. During the spring, brother Rey Moreno held the office of President of the Longhorn Pharmaceutical Association. Several other brothers also held offices in this professional student organization. Another Kappa Psi brother, Javier De La Garza, is the student senator representing the College of Pharmacy in the University Senate.

Gamma Gamma Chapter wishes the very best of luck to all of the Kappa Psi brothers.

Fraternally,

Tom Balmas
Historian

GAMMA THETA CHAPTER
UNIVERSITY OF MISSOURI
KANSAS CITY

Since the last issue many things have been happening at our school with the busy year round program. On June 17, we initiated five Little Sisters. They were Danna Skeens, Debbie Biddle, Sheila McCormack, Darcy Steele, and Cathy Carroll. These ladies are working hard to help with a strong rush program this fall. Our thanks to Gamma Nu for the help provided. If we can be of assistance in helping any other chapter please let us know.

We would like to welcome to our school another Kappa Psi faculty member, Mr. Mike Kimminau. On August 8, over 70 brothers, prospective pledges, and dates attended a Royals Double Header at the stadium. A fantastic time was had by all.

The Fall rush programs will be starting August 29, as we hope to get an excellent group again this fall to help expand and improve the policies of Kappa Psi.

Fraternally,

Jerry Stephens
Historian

DELTA IOTA CHAPTER
FLORIDA A AND M UNIVERSITY

Though it has been awhile since our last Chapter report, we are proud to announce that our Chapter has been active throughout the year.

During the fall quarter, we held four one-hour lectures on "Vocational Opportunities for Pharmacy and Related Professions." This was extremely helpful to our upcoming internship candidates with their choice of clinical experience.

Our winter quarter was one of the most exciting quarters. A hypertension screening clinic was held at several shopping centers and pharmacies throughout the city. We provided pamphlets and counseling to diagnosed and undiagnosed hypertensive victims.

Spring quarter brought several aspects of newness to our Chapter. There were sixteen (16) inductees into Kappa Psi. New techniques in poison prevention were initiated. We traveled to several elementary, junior high and high schools in the city during "Poison Prevention Week" to provide children with information on poisonous plants, insects, germicides, etc. This project was highly accepted by both students and adults. In fact, we were requested to do similar projects on a more regular basis. Therefore, during that same quarter we gave presentations to the local junior high and high schools on alcohol and drug abuse. There is now a committee in our Chapter organized especially to assess the need for more projects of this kind and plan for their presentation.

On July 22-24, 1977, we hosted our First Annual Tennis Tournament on the University Courts of Tallahassee, Florida. A field of twenty-six (26) entrants in Men's Singles and fourteen (14) participants in doubles competition combined to provide fierce play during the three day tournament.

Participating in the tournament were several Kappa Psi brothers who graduated from Auburn, Mercer, and the University of Florida. Tournament director Walter Johnson (Delta Iota) indicated his satisfaction with both the number of players and the competitiveness of the matches.

As a result of the success of our first tournament, we are planning another tournament during the fall to benefit the Big Brothers Program in which we participate. Other chapters should be advised that this is an excellent forum for brothers of other chapters to get together.

Winner in Men's Singles competition was Gregg Gleason. Second place went to Terry Lewis. Men's Doubles were won by Robert Hurst (Delta Gamma Alumnus) and Terry Lewis. Dallas Williams and John Harris took second place.

Our plans for the upcoming year include reorganization and revision under the leadership of our newly elected officers:

Regent ..... James Goodman
Vice-Regent ..... Mark Leath
Secretary ..... Alvin Sermons
Treasurer ..... Reginald Barnes
Historian ..... George Harley
Chaplain ..... Charles Lockley
Grand Council Deputy .... Henry Lewis III

Fraternally yours,

Alvin Sermons
Secretary

(L to R) Henry Lewis (Satrap, Province IV); Terry Lewis, 1st doubles; Robert Hurst (Delta Gamma Alumnus), 1st doubles; James Goodman (Regent, host chapter - Delta Iota).

39TH GRAND COUNCIL CONVENTION

KAPPA PSI CENTENNIAL CELEBRATION

AUGUST 5-10, 1979

MARRIOTT'S CAMELBACK INN

SCOTTSDALE, ARIZONA

KAPPA PSI MEN

Peter Peterson, A. H. Robins, presents the 1977 Bowl of Hygeia Award to Dr. Norman A. Campbell (Beta Epsilon) as R. I. Pharmaceutical Association President George V. Ferri looks on.

ORDER OF THE GOLDEN MORTAR

The Fraternity has established an honorary order restricted to persons who have been members of the Fraternity for fifty years or more. If your chapter is aware of Brothers who have been members before 1925, please contact The Central Office so this very special honor can be given to them. The following members have been so honored.

Isaac Orr Sumrall (Beta Rho)
Tom Z. Whitehead (Beta Rho)

PAST GRAND REGENT CAMPBELL BOWL OF HYGEIA RECIPIENT

Dr. Norman A. Campbell (Beta Epsilon), Past Grand Regent, was presented the 1977 A. H. Robins Company Bowl of Hygeia Award at the Rhode Island Pharmaceutical Association 103rd Annual Convention in June. The award, established by the A. H. Robins Company of Richmond, Virginia in 1958, is presented annually to a pharmacist in each state in recognition of outstanding service to pharmacy and the community.

Brother Campbell, professor of pharmacy administration and department chairman in the University of Rhode Island College of Pharmacy, holds membership and leadership positions in a number of professional societies and organizations. A past president of the Rhode Island Pharmaceutical Association, he serves presently as a member of the board of directors of the American Association of Colleges of Pharmacy and on the national executive council of Rho Chi Pharmacy Honor Society. He has served as a member of the steering committee of the American Society for Pharmacy Law and holds membership in the APhA, NARD, and the ACA.

Dr. Campbell serves as third vice president of the Narragansett, Rhode Island Lions Club and as a member of the board of directors of the RI Lions Sight Foundation. He is chairman of the Town of Narragansett Recreation Advisory Board, and has served on the board of directors of the Narragansett Little League and the South County Unit of the American Cancer Society. He is listed in *Who's Who in the East* and *Dictionary of International Biography*.

A VISIT TO FRATERNITY ROW

A Review By Jeff Hoffman, Alpha Sigma Phi, University of North Carolina

When was the last time going to see a movie became a house project? There's a new film that has been released by Paramount. Getting your house to see it may be one of the most important things you do all year.

It's a film about dreams and realities, love and hate, life and... death. It's a film about the Greek system, its problems and the problems of trying to change it.

"Fraternity Row" presents a very beautiful yet at times a very brutal portrayal of fraternity life in the 1950's. The beauty comes out as the film hints that brotherhood can be a cherished and meaningful experience. The brutality shines in living color through examples of social bigotry and senseless hazing, which leads to the death of a pledge. The pledge dies during a ceremony that all must go through before he can be called "Brother."

The story of "Fraternity Row" is centered around the pledge class of Gamma Nu Pi, a mythical fraternity at a mythical Eastern college. The pledge class president, a dreamer and idealist, teams up with the pledge master in a fight to change the system. In less than typical Hollywood fashion, the good guys don't win. The wrong brothers take control of the pledge class. Hazing is rampant and it continues until the pledge president dies, after choking on a piece of raw liver. The guilt of his death is shared by all the fraternity members.

"Hey! Wait a minute!" you say. "What does that have to do with today's fraternities? We're not like that. Hollywood is anti-fraternity!"

Charles Gary Allsion, writer and producer of "Fraternity Row" has his own thoughts on that.

During a recent speaking tour of North Carolina, where the movie had its world premiere, Allison said he never intended for "Fraternity Row" to reflect today's Greek system. In fact, he cut a few parts of the film that could possibly indict the system of today. Allison indicated that he is all for the Greek system and that it has many positive attributes. However, he does ponder as to why there have been six hazing-related deaths in the past two years.

The story of the film comes from a personal haunting from Allison's past. He intended, among other things, for the film to be a character study of a man he knew as an undergraduate. He wanted to remember this man and ask the very difficult questions as to why he died and was it important that he died. He asks, was his death in vain?

Allison was in a fraternity, but for discretionary reasons he refuses to name which one. The young man who died was a pledge of his fraternity. He claims that the Grand Griffin ceremony (depicted in the film as when the pledge dies) was word for word, action by action, from the beginning to when the ambulance attendant upon seeing the grotesque scene asks, "Is this what you rich kids do?" is as it actually occurred.

This knowledge makes the film a bit more ominous.

One question Allison repeatedly asked the Greek audiences he spoke before was "Does paddling the Hell out of a guy make him a better brother?" The answer was left for the fraternity community to answer.

Allison comes to the filmworld after a stint in government work in Washington, D.C. There he helped organize and develop the Presidential Classroom Program. Through that experience he had the opportunity to watch changes in the attitudes of youth. Allison said he noticed a return to the old values of the 1950's on today's college campuses. But he also noted that there is a great deal of skepticism and cynicism in today's youth. Another aspect of "Fraternity Row," Allison pointed out, was to ask if the old values were the best values.

(continued on page 12)

HUMOR

WEDNESDAY MORNING FOOTBALL

By Ben Welch (Gamma Xi)

Football season is upon us and we can expect to be barraged with numerous football games on the tube at almost any time of the day or night. With this in mind, I thought I would let you in on a scouting report I saw concerning two new expansion teams in the National Football League; the Mineral Oilers and the Bismuth Violets.

First the Oilers; This may be the surprise team in the NFL this year because of some slippery personnel.

Their Quarterback will be Dart Von, an excellent ball handler who can really hurl the pigskin pellet. When asked how his shoulder was responding after last seasons surgery, he replied that he could take the pain, Q 4 hr. prn.

Dart will be throwing to a couple of excellent receivers, who are also brothers. At Tight End will be Tandy Rill, one of the hottest tight ends in the game. He really gets inflammed when someone tries to tackle him. His brother, Timmy, the Wide Receiver, is just itching to get started this season and take up where he left off last year, leading the league in receptions.

Their Fullback, Wy Noide, was a real pain in the tail to the other teams last year as he rushed for over 1,600 yards. He said he is going to be even better this year, because he's H.C. (Hard to Catch).

Don Tal, the Halfback, had a spasmatic year last year. When he was good he had a great game, but when he was dry he was terrible.

The offensive line, led by Lanny Lyn, who is one of the smoothest centers in the league, is going to be tough for any defense to roughen-up.

The Oilers have a real sleeper in their Place-Kicker Bill (Knock) Teck. Last season with Buffalo he had six field goals over 47 yards. He's been working real hard this spring kicking cinder blocks barefooted—watch out!

The Violets, led by their new coach and College All-American, X-Prep, will probably finish on the can—dead last. Unless their Quarterback, Ben Z. Cane, a slick passer, changes his attitude and starts getting the feel of the new system, the Violets could be hurting in the Q.B. position.

One of the bright spots for the Violets may be Monnie Stat, whose infectious enthusiasm may just help the team overcome their overall weaknesses.

The offensive back field coach, Perry Actin, has been scratching his head trying to come up with trick plays that will dazzle the opposition and leave them hungry for a tackle.

A possible contender for the rushing title may be Mo Dane. At the end of last season, Mo just kept going and going, carrying would be tacklers and piling up yard after yard. The only trouble was that Mo was stopped up in the early part of the season. This year Mo hopes to be moving in top form as soon as the season opens.

Al Bee, the trainer, says his team may not win many games this year, but they will be the healthiest team in the league.

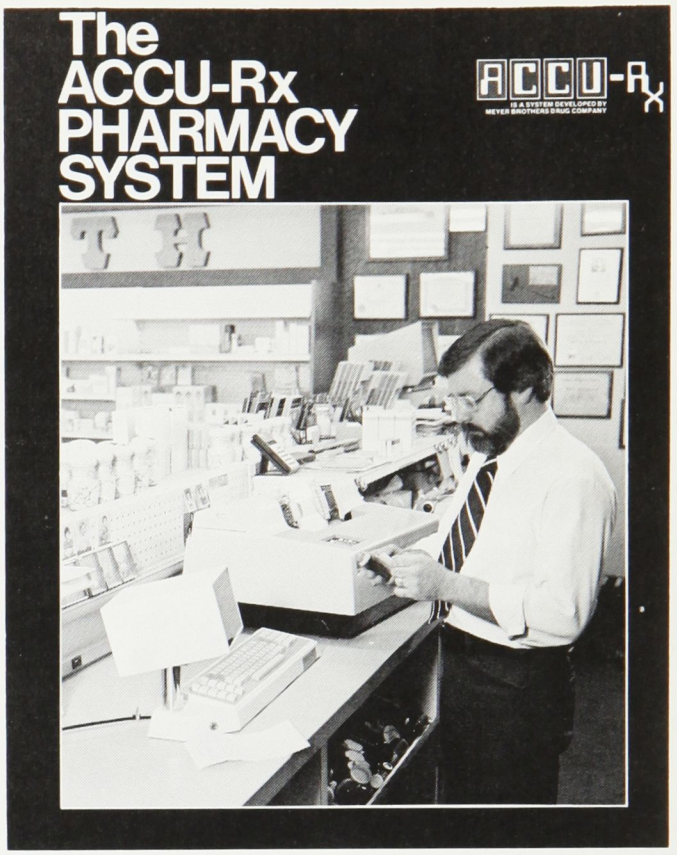
Other players to watch out for this year are: Skee Lackson of the New York Jets. Skee hopes to overcome his lack-a-daisical play of the last year. He says he will be more relaxed before this years games.

Fenny Phen, number 4, the crushing middle-linebacker for the Bayers says he is going to put the hurt on the running backs this year.

Here are some of the outstanding rookies to watch: Paul Mox, Halfback for the Pro Loyds, Ted Ral, Wide Receiver for the Stealers, Benny Drill, Defensive Left Tackle for the Seahawks, and Nora Nill, possible the first woman to play for the NFL, however; at this point in time her chances of breaking the sex barrier are 1 plus 50 in a thousand.

About the author: **Ben Welch** was initiated into Gamma Xi Chapter at the University of South Carolina in December 1967. He has a very active record in the fraternity, having served as Parliamentarian and First Vice Regent at Gamma Xi, Regent of the South Carolina Graduate Chapter, and Satrap of Province III. He has been a delegate to three Grand Council Conventions and is currently the Graduate Member of the national Executive Committee. Presently he is employed by the State of South Carolina Department of Mental Health as Assistant Chief Pharmacist at the South Carolina State Hospital in Columbia, South Carolina.

"A STAR IS BORN"



Grand Regent Fitzpatrick can be seen on the cover of a promotional booklet distributed by The Accu-Rx Pharmacy System (see photo above).

(continued from page 11)

After viewing the film one wouldn't think so.

The full impact that "Fraternity Row" may have on the Greek world will probably not be noticed until fall rush. Allison warned the Greeks he talked with to see the film because entering freshmen will have seen it and they will ask many questions about it and about the way houses are really run.

Even though the film is set in the 1950's, some potential rushees may view it as being relevant to today. When the new freshman walks past the doors of today's houses, he will wonder what secrets lie within. His mind may wander back to "Fraternity Row" and he may refuse to check it out for himself.

That is a possibility Allison seemed to shrug off. He contended that if fraternities are open and honest with rushees then the movie will have no effect on their present growth rate.

Of course these problems will have to be faced as they come. But everyone should be encouraged to see this film and possibly it should be discussed among the brothers. The movie could have a terrific impact on the Greek system and everyone should be prepared to handle it.

One other thing Allison pointed out that could make matters worse. Because of the potential box office appeal "Fraternity Row" may enjoy, two spinoffs have already been made by other companies. These are entitled, "The Pledges" and "Animal House." According to Allison, those films are savage in their treatment of fraternity life.

In case you may be thinking that Allison is getting rich at the Greek system's expense, he is donating all the film's profits to the cinema department at the University of Southern California for a new building. Incidentally, Allison made "Fraternity Row" as an aid to the completion of his Ph.D in philosophy and communication.

"Fraternity Row" may or may not have an effect on the Greek system, but it is a film that every Greek should be made aware of and of the possibilities it could bring.

A word of caution. See it with an open mind or you may find it hard to sit through the entire film.

Springfield, PA 19064

WHITE HOUSE FELLOWSHIPS

Applications for the fourteenth nationwide competition for the 14-19 White House Fellowships awarded each year, will be available after August 1, 1977.

SCOPE

Established in 1964 by President Lyndon B. Johnson, this non-partisan program is designed to give outstanding, rising young leaders one year of firsthand high-level employment in the Federal Government as well as a comprehensive educational seminar. In addition to their job assignments as special assistants to the Vice President, Cabinet Secretaries, and principal members of the White House staff, the Fellows participate in an extensive seminar program consisting of off-the-record sessions with top government and private sector leaders, journalists, scholars, and foreign officials.

ELIGIBILITY

The program is open to U.S. citizens. Employees of the Federal government are not eligible with the exception of regular members of the armed services. There is no occupational restriction. Those who have been selected have included scholars, engineers, corporate employees, academic professors and administrators, medical doctors, architects, local public officials, lawyers, oceanographers, a policeman, and a symphony conductor.

CRITERIA FOR SELECTION

Proven leadership, intellectual and professional ability, high motivation, and a committment to community and nation are the broad criteria employed in the selection process.

WHERE TO OBTAIN INFORMATION

Application materials and additional information may be obtained by sending a post card to The President's Commission on White House Fellowships, Washington, D.C. 20415 or by calling (202) 653-6263.

NOTE: Requests for applications must be postmarked no later than November 15, 1977.

KAPPA PSI PHARMACEUTICAL FRATERNITY
1313 W. ROBINHOOD DRIVE
STOCKTON, CALIFORNIA 95207

Return Postage Guaranteed
