## EDITORIAL

### 1978 EXECUTIVE COMMITTEE MEETING

This year's meeting was held in Scottsdale, Arizona at the Marriott's Camelback Inn, site of the 39th Grand Council Convention. The Camelback is a complete family resort hotel-condominium complex with activities for all ages. It was easy to see why this facility has a Five-Star rating. The food and beverage service is expensive, but each living unit is complete with a kitchenette, so that some meals could be prepared in your unit. This should be good news to those who have modest budgets. Remember that some of the meals are covered in the registration fee including a steak dinner at the famous Pinnacles Peak.

There is an excellent program planned in addition to the regular business of the Grand Council. Two continuing education programs are planned, both accredited by ACPE. This will be of interest to all graduate members and collegiate members too.

### THE FRANK H. EBY AWARD

The Executive Committee has approved the establishment of the Frank H. Eby Award for outstanding service to the fraternity and the profession of pharmacy. Each chapter will have the opportunity to nominate one individual for the cash award. This award will be

### Editor

*Norm Kobayashi*

presented for the first time at the Centennial Celebration in Scottsdale. As you know, this award is in honor of Dr. Frank H. Eby, professor emeritus at Temple University and past grand regent and past chief executive officer of Kappa Psi.

### SOUVENIRS

A souvenir liquor decanter has been designed by Lionstone Distilleries and will be produced in limited quantities. Also, the Franklin Mint will be striking a special sterling silver collector's plate commemorating our centennial year.

The highlight of our centennial year will be the 39th Grand Council Convention to be held August 5-10th at Marriott's Camelback Inn in Scottsdale, Arizona. The Central Office, along with the Centennial Committee are progressing with an excellent program. Our centennial success will not be achieved without the support and cooperation of our total membership. I would sincerely hope that each undergraduate chapter and graduate chapter would make an extra effort to contact alumni members and inform them of the Grand Council Convention and encourage their participation. To date we have received much interest from our membership concerning our Centennial Celebration. Because we are limited by the Camelback Inn on the number of reservations that they will hold, I strongly suggest that everyone planning to attend contact the Central Office at his earliest convenience in order that they may be guaranteed lodging at the site of our centennial activity.

The Central Office has spent a lot of long hours and hard work in planning a successful and rewarding 39th Grand Council Convention. In future issues of *The Mask*, our editor will be highlighting the special centennial activities. As a testimonial to our fraternity, the Central Office will publish the Centennial Commemorative Program Book, which will be a hard cover bound edition containing pictures, narratives, letters of acknowledgment, program activities, and much more commemorating our centennial. To help underwrite the cost of publication and fund the 39th Grand Council,

we are offering patron advertising space in this publication. This space is open to everyone for participation. We wish to make this project self-supporting plus allowing us additional funds to help offset costs to our members that will attend our Centennial Celebration. I am personally soliciting your help and participation in making this program book a financial success. The Central Office will supply upon request additional information concerning the cost of advertising space.

I would like to encourage our alumni to participate in our Voluntary Dues Program. The Central Office has tried to involve our graduates in future activities including planning the centennial program. The \$10.00 yearly contribution is so little to ask but benefits the fraternity in many ways in strengthening our brotherhood and fulfilling programs that benefit our total membership. Another area where the graduates may participate is helping us update our mailing list. It is more important now than ever that we get in touch with as many members as possible in order that we may inform them of our centennial activities. Over the years we have lost contact with a large number of our graduate members. If any Kappa Psi member knows of any other alumni who has lost contact with us, please forward his name and address to the Central Office so that we can put him on our mailing list. It is very important that we expand our exposure to as many of our members as possible.

I would like to express my personal appreciation to the editor of *The Mask* for an excellent job he is doing in publishing our official magazine. The *Mask* is your magazine, and we greatly need input from our membership. Our editor welcomes contributions from our alumni. Any information is greatly appreciated and makes his job a little easier.

Finally, I would like to extend Season's Greetings to our membership from myself and the Executive committee. I would like to wish everyone a successful and rewarding New Year, and I hope to see as many as possible in Scottsdale, Arizona.

I would like to leave everyone with one thought...be proud you are a member of the largest and oldest pharmaceutical fraternity in the United States, and also be very proud that you are a professional pharmacist. Promote your professional affiliation and membership by becoming involved

**William A. Fitzpatrick**  
Grand Regent

## GAMMA NU AHEAD

### KAPPA PSI CENTURY CLUB

In 1979 Kappa Psi will be celebrating its 100th anniversary. To commemorate this occasion a Kappa Psi Century Club has been established to pay tribute to the second century of Kappa Psi service.

Twenty-five percent of the contributions will be utilized to fund the centennial functions. These will include a commemorative favor, a Lionstone commemorative decanter, special recognition for members of the Golden Mortar, and the Centennial Grand Council Convention. At the centennial convention in Scottsdale free transportation will be provided for members of the Century Club from the airport to the Camelback Inn. A special reception will be held on Tuesday evening for the Century Club members. **The chapter with the most members will be honored guest for the occasion and a plaque of appreciation will be presented to them.**

The remaining 75 percent of the contributors to the Century Fund will be placed in a long term limited access fund with the interest deposited in the general fund to further fraternity operations.

Anyone, including collegiate and graduate chapters, is eligible for membership by contributing \$100.00. Each member will receive a certificate, a 10 k. gold pin and national recognition with their name and chapter affiliation published in *The Mask*.

Contributions should be sent to Dr. Dewey D. Garner, School of Pharmacy, University, Mississippi, 38677. Checks should be made payable to Kappa Psi Century Club.

*Fraternally,*

**Dewey D. Garner**  
Chairman Century Club

*The Fraternity gratefully recognizes these Century Club members:*

Dominic A. Salimando (Eta)	Irwin D. Chow, Jr. (Gamma Nu)
John Atkinson Jr. (Theta)	Chris Gong (Gamma Nu)
Donald G. Floriddia (Mu)	Jim J. Kocolas (Gamma Nu)

James G. Snyder (Beta Chi)	Johnny W. Porter (Delta Beta)
Larry Slater (Gamma Theta)	Gene Prouse (Delta Delta)
Karl Kettler (Gamma Mu)	Joseph A. Altieri (Conn. Grad.)
Paul S. Knecht (Gamma Mu)	St. Louis Graduate Chapter
John Q. Adams (Gamma Nu)	Pi Chapter
Tim Chapman (Gamma Nu)	Beta Rho Chapter
William M. Brehm (Gamma Nu)	Gamma Pi Chapter
Tim Chapman (Gamma Nu)	Province VI

*The Fraternity welcomes the following New Members to the Century Club:*

**Donald R. Gronewold (Chi)**  
**Eugene F. Kaelin (Gamma Pi)**

## THE DAY THE COMMUNICATION CYCLE BROKE DOWN

by Frank Murphy, Ph.D.

We hear so much about communication these days it is almost getting monotonous. Volumes have been written on how to communicate, and yet we still hear over and over again "We are not communicating with each other." How can this be possible? We are communicating more than at any time in our history. We are bombarded daily with magazines, newspapers, radio and television informing us about everything under the sun, and for the most part, almost as soon as it happens and regardless of where it happens, — even on the moon. In fact, we are at the point where we are communicating so much, and with such sophistication, that it is impossible to absorb all the information we are buffeted with from day to day.

Why then such a hue and cry recently about the lack of communication, and the strong drive to "do something about it?" Is it true we are not communicating, or is this something only in the minds of those promoting communication courses? I believe it is true, not because of the lack of information sent, but because of the lack of information being received. We are just not listening to each other.

One of the basic fundamentals of effective communication is the completion of the communication cycle. The communication cycle means that the sender must know that the receiver has received the message *as intended*. Without this feedback there is no positive communication. If we are not listening to each other we cannot give feedback to the sender. Unfortunately, the senders are not listening for the feedback and continue to talk, — hence the lack of communication even with the increase in communication media.

Why don't we listen? There are many reasons. One reason is that we don't know how to listen. When we go to school we are taught how to write, to spell, and how to pronounce words. If we are so inclined there are even courses on how to speak in public, debates, and readings. Nowhere are we specifically taught how to listen. It is assumed that this comes automatically as long as we have adequate hearing. This is not true. We must develop listening skills just as we have to develop memorization skills, — by exercise.

What are some of the barriers to listening? One is disinterest. Think about the following situation for a moment. How many times can you recall being the guilty party in this story? Harry is the fortunate one who gets the first word in, and you become the listener.

---

Frank Murphy, among other administrative duties at Purdue University School of Pharmacy and Pharmacal Sciences, teaches a course called "Communications and Professional Relations." Dr. Murphy received his Bachelor of Science in Business Administration from Denver University, and his Master of Science and Doctor of Philosophy Degrees from the Purdue University Department of Education. He was initiated into Kappa Psi in 1976 by invitation from the members of Pi Chapter.

---

MARGIN OF SUCCESS

Coordinated by

Kenneth W. Kirk, Ph.D.

For a moment you are fairly attentive, but pretty soon you decide you are really not interested in Harry's idea. Almost immediately you shut Harry off. Your mind begins to wander into other areas. You listen just enough not to get caught if he should ask a question, but you are really not absorbing the gist of the message. Your mind is busy "setting up" a new subject. Pretty soon Harry mentions something about an experiment with frogs and mentions something about the leg twitching. Aha! You've found it! Now you are just waiting for the right moment. Harry soon gives you this opportunity by making the mistake of taking a breath, and you quickly break in with "By the way, speaking of frog legs, have you ever had any at Fisherman's Grove? You really ought to try them. Delicious!"

What is happening here is the old problem of "my interests should be your interests," and not reading the other person to see if this is really true. This happens daily between pharmacist and patient. The patient may have a vital interest in telling the pharmacist about the problems at home, equating these with the illness. The pharmacist, on the other hand, is concerned with getting the lady's money in the cash register, and getting on with the next prescription. Or, for another common example, there is the patient who argues with you about the high cost of medicine these days and how difficult it is on a fixed income to keep up with the regimen. You, the pharmacist, have another frame of reference, that is, staying in business. Neither of you leave the conversation with any idea of the real problem. You see the patient as a chronic complainer, the patient sees you as not very sympathetic or understanding.

Another problem in our apparent lack of communication lies in the area of assuming. We often assume by interpretation and according to our own feelings what the speaker or writer is saying, and blind ourselves to the real word. When we do this we often assume something without any inference by the speaker or writer to warrant such an assumption. The professional example here is the well worn but still practiced error we make when we continue to say "take after meals" or "take three times a day," and think this will suffice. We assume the patient knows what this means. Does it mean four times if I have four meals a day? Does a snack count as a meal? Of course not (stupid), *everyone* knows we have three meals a day.

Assumptions come in other forms also. I might call this one the "lack of time to pay attention" problem. This one caught up with me just the other day in fact. The new safety caps that come with dangerous materials all have directions for opening them. Since I know how to open child-proof containers, I didn't have to take the time to read the instructions. You just push down on the cap while you are turning it. The other day I bought some anti-freeze with a safety cap. I pushed down on the cap while I was turning it but nothing happened. I tried harder. Still nothing happened. In desperation I read the instructions which said "squeeze sides while turning." Very simple when I took the time to read the instructions. This happens when we give verbal instructions too sometimes. I'm sure you have experienced a situation where you have given some instructions to a patient only to have her call back when she got home asking what to do. In exasperation we turn to our fellow pharmacist with the comment "I told her that just before she left." Sure you did. But she may have thought she knew all about it and didn't pay attention. We all do it. But when we do, we are not listening.

These are some of the bad habits that become troublemakers and prevent us from communicating with each other. What can we do about it? How does one "learn to listen"?

The first step in *effective* listening is concentration. This is difficult for most of us, as you will see if you go through the exercise of *consciously trying to listen*. You will discover that this is not a skill that comes overnight, but will be a somewhat frustrating exercise at times. You will find your mind wandering and going into patterns similar to those explained earlier in the examples. What we need to help us through the stages of acquiring this habit is a compelling force that will keep us on the track. A good example of a compelling force is when your professor said "What I will discuss today in class will be on the test, and you can rest assured that it will constitute about 60%

ILLUSTRATION REDUCED. ACTUAL PLATE 8" IN DIAMETER

## THE KAPPA PSI COMMEMORATIVE PLATE

The Kappa Psi commemorative plate will be issued to celebrate our 100th anniversary. This beautiful 8-inch solid sterling silver plate features a meticulously etched design of our official coat of arms and identifies the centennial commemoration. It will be issued in a single, very limited edition—reserved exclusively for brothers. A full-color illustration of this beautiful plate, together with complete ordering information, will be sent to you in January 1979. Please watch for it.

## NEW EXECUTIVE COMMITTEE MEMBERS

### PROFESSOR WHITE INSTALLED AS CHAIRMAN OF PHARMACY TEACHERS

At the seventy-ninth annual meeting of the American Association of Colleges of Pharmacy, recently concluded at Orlando, Florida, Professor Albert M. White (Nu) of the Albany College of Pharmacy, Union University, was installed as Chairman of A.A.C.P. Teachers of Pharmacy.

Professor White, Assistant Dean at Albany, will preside at the next annual meeting of the pharmacy teachers to be held in Denver, Colorado. He is a member of the professional affairs committee and the committee on foreign graduates of the A.A.C.P.

Brother White was Regent of Nu Chapter and past Satrap of Province I.

**Kenneth S. Griswold**, (Beta Delta) retired from the Albany College of Pharmacy on December 1, 1978, where he served as Director of the Division of Extension Services. Prior to that, Brother Griswold was Secretary of the New York Board of Pharmacy from 1958 to 1970 and had previously served the Eli Lilly Company for 29 years as a salesman and then district manager.

### LOGO CONTEST WINNER

Brother **John Winzler** (Gamma Nu) was selected by the Executive Committee as the winner of the Logo Contest. His creation can be seen on the front cover of this issue. John will receive round-trip air fare to Scottsdale, Arizona where he will be honored at the Centennial Dinner and receive a personalized award.

*Johnny W. Porter*  
*Graduate Member*

**Johnny Porter** was initiated into Delta Beta Chapter in 1971 and was graduated from Southwestern Oklahoma State University in 1973. He is currently active in the Southwestern Graduate Chapter where he serves as Vice Regent. He attended the 38th Grand Council Convention as a delegate and is a member of the Kappa Psi Century Club. Presently, he is employed as a pharmacist with Skillern Drug in Dallas, Texas.

*R. Brad Mote*  
*Collegiate Member*

**Brad Mote** was initiated into Gamma Phi Chapter at the University of Georgia where he is currently a senior. He has been active in the Pharmacy Ethics Court at Georgia. He currently is Vice Regent and Rush Chairman at Gamma Phi. He is president of the Georgia SAPHa chapter and a member of the Georgia Pharmaceutical Association Board of Directors. Brad is also a member of Phi Lambda Sigma, a pharmacy leadership society.

### DR. WILLIAM BROCHU NAMED SECTION CHIEF

**William E. Brochu**, Ph.D., (Mu) has joined Norwich-Eaton Pharmaceuticals' scientific affairs department as section chief of new product development in the pharmaceutical research division. Dr. Brochu will be responsible for the formulation development of new professional and consumer products.

Most recently, Dr. Brochu was associated with Baxter-Travenol Laboratories where he served as section manager, pharmaceutical development.

A native of Lowell, MA, Dr. Brochu is a 1963 graduate of Keith Academy. He earned his B.S. and M.S. degrees in pharmaceutical sciences from Massachusetts College of Pharmacy in 1968 and 1970, and was granted his Ph.D. in industrial and physical pharmacy by Purdue University in 1974.

## IN MEMORIAM

**William S. Bucke**, (Chi) former President of Lafayette Pharmacal Inc., now a division of Alcon Laboratories, Inc., Ft. Worth, Texas, and past president of the Parenteral Drug Association, died on the morning of July 7, 1978, in his home in West Lafayette, Indiana. Bill Bucke was born in Chicago, Illinois, on August 26, 1895. He was a graduate of the University of Illinois School of Pharmacy and held a degree in Business Administration from Northwestern University. In 1971, the St. Louis College of Pharmacy conferred an honorary Doctor of Science degree for his distinguished service to the profession of pharmacy. His early career involved retail pharmacy as the proprietor of two drugstores in Chicago and as one of the founders of the Ford Hopkins Drug Store chain, now a part of Steinway Drugs. Dr. Bucke joined Lafayette Pharmacal Inc. in 1937 as sales manager. Under his leadership the company evolved from its position as a manufacturer and supplier of private label drugs to a leader in the area of radiopaque diagnostic products.

During Dr. Bucke's many years at Lafayette Pharmacal Inc., he had been active in many organizations affiliated with the industry. He served as President of the Parenteral Drug Association from 1958-1959; the Midwest Pharmaceutical Advertising Club from 1956-1958; and the Midwest Pharmaceutical Market Research Group. He has subsequently served on the Board of Directors of all of these associations. He was a charter member of the American Pharmaceutical Manufacturers Association, now known as the Pharmaceutical Manufacturers Association, and has served on its board for three years, 1952-1955. Since 1972, he had served as Adjunct Professor of Clinical Pharmacy at Purdue University School of Pharmacy. He was a member of the American Pharmaceutical Association, American Medical Association, Indiana and Illinois Pharmaceutical Associations, the American Chemical Society, and Kappa Psi, national pharmaceutical fraternity.

In 1924, he was married in Chicago to Edith C. Stephens who survives.

---

Continued from Page 4

---

of the next test." You concentrated! Your brain was really programmed to absorb this information by sub-consciously saying "pay attention to every word because it is important."

Programming the mind means giving the mind a specific task to do. If you don't have a program for the mind to follow it will wander, — and this is exactly what creates non-listening. What do I mean by programming the mind? There are many ways we can discipline the mind, and you should choose one that you know you can master, but let me present a few that I have found valuable in my early exercise.

In order to make listening a conscious effort, try repeating to yourself:

- 1) I will listen carefully to what is being said.
- 2) I will weigh the speaker's words before making judgments.
- 3) I will try to establish a central theme or idea the speaker is trying to convey so that I can better see the whole picture as it develops.
- 4) I will only interrupt when I need clarification.
- 5) When I ask questions for clarification I will then permit the speaker to complete his story.

This may sound simple, if not foolish, but without some exercise such as this in the early stages of "purposeful listening," it is possible you may just revert back to the hearing but not listening stage. The more

you drive your mind back to the program, the more comfortable it will be in this environment, and the less likely you will deviate from the program. Exercise. Just plain exercise.

Let's look at the rules again one by one. The first one "I will listen carefully to what is being said" is not as simple as it sounds. This takes a little purposeful thinking. It is the first step that has to be accomplished. I suggest, in fact, that the remaining steps not even be considered until the first step has been well mastered. This is the real test of concentration. Once you have mastered the first step, the remainder will become more easily accomplished.

The second rule, "I will weigh the speaker's words before making judgment" is also a little difficult. We are often so wrapped up in our own beliefs, our own opinions, and our own philosophies, that we find it difficult to listen to viewpoints that might challenge them. Some of them have been with us from our cultural background and our experiences and are rather deeply etched within our system. Any threat to them builds an automatic barrier, making it difficult to weigh the speaker's words. The trick here is to try to temporarily divorce yourself from certain beliefs that seem contradictory at the moment. One doesn't have to accept a new philosophy just because one listens attentively to it. But one may lose a good idea by not listening to a new point of view and, weighing the words carefully. This is a changing world, and new ideas and philosophies will emerge. You have the choice to change or retain the old ideas and philosophies, but you can't do this unless you listen and weigh the words. One of the prime examples in this area is the polemics between professional pharmacy and the general store concept. Those who are of the opinion that the general-store-type pharmacy is ruining the good name of pharmacy are not listening to the marketing faction, who claim such pharmacists are living with blinders on.

If they listened carefully, weighed the words, might there be a good compromise? We may never know if we don't listen.

Another problem that is related to weighing the words, and closed mindedness is difficult to categorize. I'm not sure whether it stems from selfishness, ego or ignorance. Perhaps I can best explain it with a situation I witnessed not too long ago. I will fictionalize it for the purpose of this article. The situation results from a researcher who was reading another researcher's article and making comments to me. In the first paragraph the author said "I think I have conquered the Blimp Virus." The reader immediately stated, "That guy has to be nuts. It's too complex, not enough has been known about it yet." He then proceeded to read the article with this negative frame of reference, finding fault with as much trivia as he could to prove the other researcher wrong. He didn't weigh the words. The writer said "I think," not "I definitely have." Had the reader weighed the words he should have then interpreted the message to read, "I have done some research that looks very favorable towards the elimination of the Blimp Virus, and present it to you for your observation." Had the reader assumed such an interpretation he would have readily seen that the author himself was introducing problems as the research was explained. This brings in rule three, "I will try to establish a central theme or idea the speaker (or writer in this case) is trying to convey so that I can better see the whole picture as it develops." Had this been an oral communication rather than a written one, I have no doubt that rules four and five would have been violated rather quickly. This reader was ready to pounce on the victim. Given the attitude I witnessed, this reader would have been pleased to interrupt the author, not for clarification, because he already knew it wouldn't work, but to prove the author wrong. Had the author assumed an equally adamant role, there is no doubt that this conversation would become sillier and sillier by the minute, more and more useless, and less and less satisfying for either of them. This has happened so many times with most of us we probably wouldn't want to number them. These usually end with the patient, or physician saying "Why didn't you tell me that in the first place?", and the other saying, "I tried to but you wouldn't let me."

I stated earlier that the above rules are exercises to begin the training process in effective purposeful listening. When we begin to "learn how to listen" we also begin to learn how to communicate. As a sender of messages we begin to be aware of what others will and will not likely listen to. We can steer the conversation back into listening when we see it getting out of control. Eventually you will develop the "listening habit." When you do, this listening habit will begin to open up a whole new world of effective communication. □

- **George L. Scharringhausen** (Chi) owns and operates Scharringhausen's Pharmacy with his son **William Scharringhausen** (Beta Psi) in Park Ridge, Illinois. After 50 years of practice, Brother Scharringhausen's pharmacy recently filled its 2½ millionth prescription. He has served on the consulting boards of Rexall, Smith, Kline and French, and Lederle Laboratories. He remains active in A.Ph.A. and N.A.R.D. of which he was a past president.
- **John J. Zaro** (Eta) was granted a Ph.D. in 1973 from Philadelphia College of Pharmacy and Science and received his D.O. from Philadelphia College of Osteopathic Medicine in 1976. He currently practices family medicine with **Dr. Joseph M. DiMino** (Eta) and is also a Clinical Instructor at Philadelphia College of Osteopathic Medicine.
- Sections of the A.Ph.A. Academy of Pharmaceutical Sciences recently announced the chairmen-elect election results. Among those selected are **Dr. Dave S. Forbes** (Beta Psi) Economics and Administrative Science Section and **Dr. Anthony Sinkula** (Beta Psi) Medicinal Chemistry Section.
- Two Kappa Psi members have been elected to the prestigious Institute of Medicine, the first pharmacy representatives to be honored in this way. They are **Dr. Jere E. Goyan** (Beta Gamma) Dean of the School of Pharmacy, University of California, San Francisco and **Dr. William J. Kinnard, Jr.** (Beta Kappa), Dean of the School of Pharmacy of the University of Maryland and former Kappa Psi Province II Satrap.
- **S. John Haronian** (Beta Epsilon) was featured in a front page article in the "Business" section of the *Providence Sunday Journal* on September 24, 1978. Among the innovations in Brother Haronian's five-unit chain of pharmacies called Douglas Drugs, are optometry services, legal services and a bakery.
- **Norman A. Campbell** (Beta Epsilon) has been elected to the American Pharmaceutical Association Judicial Board. He will be installed with other new A.Ph.A. officers at the April 1979 Annual Meeting in Anaheim, CA.
- **Anthony J. Solomon** (Beta Epsilon) has been renominated by the Democratic party in Rhode Island to seek a second term as General Treasurer. The former State Representative owns a community pharmacy which currently is run by his pharmacist-daughter, Donna.
- **Dr. John L. Voigt** (Beta Psi) is currently Managing Editor of Clinical Clippings. Brother Voigt is Professor Emeritus at Rutgers College of Pharmacy.

The following members have received Golden Mortar Certificates in honor of 50 years of membership in Kappa Psi. They are:

**Wellington M. Hamilton** (Beta Zeta)  
**Chris Haleston** (Beta Omicron)  
**Homer W. Gorman** (Beta Iota)  
**Paul O. Green** (Beta Iota)  
**Glenn A. Davis** (Beta Iota)  
**Howard W. Mostert** (Beta Iota)  
**Victor R. Taylor** (Beta Iota)  
**Carl E. Vrem** (Beta Iota)  
**R. Franklin Hart** (Beta Pi)

- **Irwin D. Chow Jr.** (Gamma Nu) has recently opened Lanmark Valu-Rite Pharmacy in Fresno, California. Brother Chow is also a member of the Kappa Psi Century Club.
- **H. C. Skip Watters** (Chi) will receive his D.O. from Chicago College of Osteopathic Medicine in June 1979. Skip was very active in the Illinois Graduate Chapter and is currently a member of the Board of Directors of the Kidney Foundation of Illinois and has been listed in the first edition of Who's Who in Health Care.

## NECROLOGY

**Herbert F. Schulz (Beta Psi)** passed away in September 1978 in New London, Wisconsin. He owned and operated Trayser's Drug Store in New London until 1962. He was a 1925 graduate of the University of Wisconsin.

**Leo Kemp (Delta Beta)** was shot and killed in his pharmacy in Denton, Texas. Brother Kemp is survived by his wife and infant daughter.

**John W. Bremner (Gamma Nu)**  
**Herbert Fred Schulz (Beta Psi)**  
**W. Paul Briggs (Gamma Tau)**  
**Steven B. Marra (Gamma Nu)**

## LETTERS TO THE EDITOR

Dear Editor:

Subject: Women in Kappa Psi

Last May a joint resolution was passed by Gamma Xi and the South Carolina Graduate Chapter stating our position on women in Kappa Psi. This resolution was sent out nationally asking for response along with a two question survey which you should have all received. The results are:

1. Do you favor admission of women into Kappa Psi?  
28 no's      6 yes's
2. Would you support legislation to bar women from Kappa Psi?  
20 yes's      12 no's      2 no comment

As you can see the results are overwhelming 82% do not want women in Kappa Psi and 62% want to do something to bar women from Kappa Psi.

As a result of this survey we are now prepared to take further steps to assure the wishes of the Brotherhood of Kappa Psi. Hopefully, the Executive Committee will put this as a priority item on its agenda.

**Mike Deweese**, Secretary  
South Carolina Graduate Chapter  
102 Compass Lane Route #10  
Lexington, SC 29072  
1-803-356-1598

Dear Brother Kobayashi:

I wish to take this means to commend you on the improvements you have made in *The Mask*. I wrote you a critical letter a few years ago and now I'm writing to let you know that I appreciate the "Margin of Success" department and the high calibre of professional improvement articles you have incorporated in the magazine.

**Bruce W. Fredricks**  
(Beta Gamma 1939)

- **E. Walter Lange**, (Beta Psi) has been named executive director of marketing planning and development for Eli Lilly and Company. He had been director of market research since October 1974.

A native of Wisconsin, Lange was graduated from high school in Wauwatosa in 1950. He received a Bachelor of Science degree in pharmacy from the University of Wisconsin in 1954 and Master of Business Administration degree from Marquette University in 1958.

Lange joined Eli Lilly International Corporation, a Lilly subsidiary, in 1960 as a sales representative in Canada. He held positions of market analyst, chief of territorial operations and sales analysis, manager of promotional planning, manager of marketing planning, and manager of the company's Twin Cities sales district. Early in 1974 he was named manager of corporate pharmaceutical marketing planning.

## ETA CHAPTER PHILADELPHIA COLLEGE OF PHARMACY & SCIENCE

The Brothers of Eta have seen this year off to an excellent start. Socially, we are still Number One on Campus, as evidenced by the large turnouts at our regular parties. Speaking of parties, our annual Goldfish Party was once again a splashing success with the award going to a Freshman (a future Brother) for eating the most fish (50). The first Rush Party had the theme of "Toga." Everyone present was fully clad in appropriate garb, and there was much fun and frolic as in those frivolous days. A Mexican theme highlighted the second rush.

Professionally, Eta has been exceptionally active in Diabetes Screening and Hypertension Screening. The screens take place every other Sunday at continuing education classes. Also, the brothers teach various aspects of diabetes education and screening techniques to third year classes. During the busy shopping days of Christmas the brothers did screening at area malls. Once again, we have in the planning a charity basketball game with the newscasters of our local ABC network. We are looking into the possibilities of running an Oral Cancer Screen along with our other two screens.

Athletically, we find ourselves sitting in first place in our Interfraternity Sports Program. So far this semester we took first place in Foul Shooting, and Pool, and second place in Frisbee. We have a strong chance to finish first in Basketball. So all in all it looks like we have a good chance to repeat as champions.

Our Founders' Day celebration proved to be a roaring good time as many Brothers got smashed on the punch (the faculty Brothers seemed to enjoy themselves too.)

The Province II Meeting was hosted by Eta. The meetings were attended by Delta Epsilon, Eta, Phila. Grad., and Pitt. Grad. Overall, the actual meetings ran smoothly, but the evening parties could have been better had more attended.

We are eagerly awaiting our Annual Formal, which will be held March 23rd at the Silver Lakes Inn.

The Brothers wish Dr. Eby a speedy recovery from his current illness. We also wish all the Brothers much success in the remainder of the school year, and are looking forward to seeing you at Arizona.

**Michael Brill**

## MU CHAPTER MASSACHUSETTS COLLEGE OF PHARMACY

At the very beginning of our summer vacation matters were taken into hand to provide many activities and projects for the Mu Chapter Brotherhood to get actively involved in. One of the various projects the Brotherhood pursued this summer was in rendering their services to the Boston-Childrens Service Association (BCSA), by assembling games and play equipment that were donated to the agency. We were also able to raise enough funds to send a needy young boy to camp this summer, through a program set up by the BCSA.

As the beginning of a new academic year neared, many of the Brothers joined together early one morning to journey to the home of our Chapter Advisor Benjamin Hershenson, in Maine. Plans for the first KY mixer of the year were finalized after the cookout at Ben's place. The later part of the day was spent indulging in such activities as frisbee toss, football, swimming and rowing. Special thanks to Ben for an excellent time for all whom attended. As for the mixer, it too was a great success.

Then it was back to school, but it didn't take long for the Brothers to get it together again! Since then we have held another mixer, ran a Novelty T-shirt contest sponsored by our KY bookstore, "The Pharmacy Connection." The winning phrase was "Pharmacists do it OTC" and will be printed on T-shirts to be sold to our patrons. Aside from this we sponsored a Blood Drive on November 2, in which we were able to help collect 92 pints of blood for the Red Cross. We have also been busy maintaining our responsibilities with BCSA with donations of both time and money.

Presently we are running a Booze Raffle with 75 prizes of "Top Quality Spirits" for the potential 50 winners. Most of next week should be fairly quiet as we will be busy taking finals to end our first quarter, after which we will have a week for Thanksgiving vacation. But as soon as we get back a beer blast has been planned and will be held in one of the local taverns. We will also be attending a meeting/beer blast that same week with our Boston Graduate Chapter in hopes to become more involved with each other.

Plans for our annual Christmas Party have been finalized for the 8th of December. The main problem in organizing this seems to be in finding a band that could play a wide variety of tunes from country/rock to disco, but like anything else, with determination we were successful in doing so. Other future plans include another one or two Blood Drives, many more mixers, an exciting pledge class, visitations to persons hospitalized during the holidays, provisions for other service projects, such as counseling on OTC drugs, generic vs. Trade name drugs, poison prevention, drug abuse and the promotion of "Pharmacists the Drug Experts."

Well, as can be seen we still have many things left to accomplish at MCP in our remaining two quarters for this year. We the Mu Chapter Brothers wish the best of luck and a prosperous year to all our KY Brothers.

**Lorraine Sicard**

## UPSILON CHAPTER UNIVERSITY OF KENTUCKY

The Fall semester has been a busy and productive one for the Upsilon chapter. A number of rush functions were given. The first function, a picnic, held at Shillito Park offered volleyball, softball, and plenty of food for the hungry participants. The next function held at Houdini's Disco, provided an excellent atmosphere for socializing and dancing. Our final rush took place on the banks of the Ohio River. The Kentucky Graduate chapter sponsored the party for all the members of the college. A Greyhound bus was rented for the trip to Louisville. There were many activities offered for the day long function, they included: volleyball, sailing, and motorboating. There was plenty of food and drink.

Twelve men pledged this years class headed by pledge masters Jerry Duncan and Ken Powell. These pledges are: Jeff Brandt, Randy Head, Jim Jefferson, Don Kupper, Ross Kushner, Mike McWilliams, Will Osborn, Dale Owens, Keith Sullivan, Doug Vaal, Terry Vest, and Gary Yelton. This years pledge class, as a project, sold limited edition prints donated to the fraternity by brother Jerry Duncan's father, a well known Louisville artist. Also, the pledges and actives are participating in a blood bank drive for the fraternity.

The brothers also participated in their bi-annual hypertension screening clinic, which took place at one of the large malls in Lexington. The chapter also sponsored a program on pharmacy practice and owning your own store, with Dr. Harry Smith as the guest speaker.

In closing, we would like to wish all Kappa Psi graduating brothers congratulations and the best of luck in the future.

**Keith Barnes**

## NORTH CAROLINA GRADUATE CHAPTER INSTALLED

The Beta Xi Chapter house was the scene for the installation of the North Carolina Graduate Chapter on a crisp October 7, 1978. Presiding over the installation ceremonies was Dr. Patrick R. Wells, Second Grand Vice-Regent and Dean of the School of Pharmacy, Texas Southern University. Mr. Gary Dunham Graduate Chapter Regent accepted the chapter. The North Carolina Graduate Chapter has an unusual history in that the first application was submitted on April 15, 1917. The application was approved but there are no known records of the chapter's installation or its activities.

Following the installation ceremonies a delicious steak dinner was served and a disco dance concluded the evening.

## PI CHAPTER PURDUE UNIVERSITY

The Brothers of Pi chapter are, at the time of this writing, anticipating the formal initiation of 14 new brothers from this fall's pledge class. On December 1, a semi-formal banquet has been scheduled to be followed by an evening of dancing and fun for the entire chapter and their dates. Also approaching is the annual election of officers on December 5. With an active chapter size of 81 members, becoming an officer would indeed bring many responsibilities to a brother. But this year, as in the past, we have several brothers already canvassing for the various positions of leadership.

The annual Pledge-Active Football Game was held on October 15 with another lopsided score being chalked up by the actives. The game was rather uneventful except for the chorus-line follies half-time show put on by the actives while being sung to by the mighty pledges. All this was followed by refreshments and eating of two 3-foot long submarine sandwiches.

This past October 21, Pi chapter, in conjunction with Kappa Epsilon and SAPHA, sponsored a Pharmacy Career Opportunities Day on campus. Pharmacists employed in various pharmacy fields (community, hospital, and nuclear pharmacy) joined representatives of the drug industry and government agencies and acted as a "panel of experts." Each pharmacist on the panel explained briefly what he or she actually did from day-to-day in his or her occupation and what the chances of advancement were in the particular field. The floor was then opened for questions from the audience. The discussions were 50 minutes in length and were held in different rooms so the audience could visit each of the sessions during the four-hour program. Also open to those in attendance were interview and resume writing workshops which the fifth and fourth-year students greatly appreciated. Approximately 150 people attended throughout the afternoon. Due to the interest generated by the students in this project, I believe this may become an annual event, and we highly encourage other chapters to investigate having a similar project.

Lastly, we would like to express our appreciation to the Brothers of Beta Psi in Madison, Wisconsin for their hospitality towards our brothers who traveled there for the Wisconsin-Purdue football game in November. A very enjoyable time was had by everyone who attended.

**Jim Bona**

## BETA GAMMA UNIVERSITY OF CALIFORNIA SAN FRANCISCO

The Beta Gamma Chapter closed out the 77-78 year with a whale of a spaghetti dinner. Announcement of the 78-79 officers:

Regent .....	Rick Beltramo
Vice-Regent .....	Andy Soderstorm
Secretary .....	Ellen Musial
Treasurer .....	Raulo Frear
Historian .....	Donna Nishijima

and farewells to a good summer concluded a great time. Ah farewells,— but not for long. As tradition holds, the Kappa Psi house put together the initiation packets for new students (and prospective brothers and sisters). To start the new year off right, the annual soupbowl saw the Redskins beat the Cowboys amidst a jovial atmosphere of first year guests and Kappa Psi members. Hardy homemade soup (minestrone and split pea), mouth-watering cornbread, crisp salad and beer and pop kept the ranks satisfied.

Plans for CPR courses (open to the school and community) were initiated with tentative dates set for the winter and spring quarters. And in October, the ghouls and goblins gathered one ghostly Friday night for the first annual Kappa Psi Halloween Party. The jack-o-lanterns glowed merrily among the costumed guests.

Of Special Note: We would like to recognize the contributions of the women in the fraternity to the organization of the house and also to the operation and cohesiveness of the chapter. Their participation in the fraternity, other professional organizations, and in the community, has brought recognition to Kappa Psi and has made us proud to have women members in our chapter.

**Rick Beltramo  
Donna Nishijima  
Raulo Frear**

## BETA CHI DRAKE UNIVERSITY

The Brothers of Beta Chi Chapter have been keeping extremely busy planning events for the Fall Semester. Foremost in the minds of the Brothers is our Rush Program. A hot dog - kegger, a pizza party, and Formal Rush Night have all been planned.

September 6 and 7 saw an activities fair held on campus, and we had an exhibit on our professional projects. Also, a car wash was held on September 9, and all the Brothers pitched in to make it a huge success. Orientation folders were passed out to all the first year pharmacy students by the Brothers, and it was well received by the incoming students.

As for our professional projects, hypertension screenings, diabetes screenings, CPR classes, poison prevention talks, drug education talks, and cancer awareness talks are all scheduled to be held in the near future, and to be continued throughout the year.

Our intramural football team has gotten off to a great start this season. Our first game was won by a score of 14-7, and the remaining games promise to be just as exciting.

As for our social events, a toga party, Halloween party, Homecoming party, a hayride, and a bowling party are all planned this semester. The Brothers are all looking forward to taking a little time from their studies to unwind at some good parties. It should be noted that our graduate chapter is taking an active role in planning some of the above parties.

The Brothers of Beta Chi wish all the Brothers of Kappa Psi a prosperous year, and welcome any correspondence from other chapters.

**Ronald J. Snow**

# GAMMA DELTA OHIO NORTHERN UNIVERSITY

The last year here at Ohio Northern has been an especially active one for us. First, our Grand Council deputy, Brother Dion F. DeLeone, left Ada, Ohio for the fairer climate of Georgetown, South Carolina and a new job. We have received word that Dion is doing very well and is enjoying his move to South Carolina. We would like to thank Dion for all that he has done for us and also to say that finding a replacement for him was an exceptionally difficult task. However, after much deliberation and constant search, we chose Dr. Albert T. Awad, Professor of Pharmacognosy. Dr. Awad has shown a great interest in our chapter and has inspired us with many new, and interesting ideas. Presently, Dr. Awad is leading a continuing education study tour to his homeland, Egypt in December of 1979. In December of this year, Dr. Awad will be in Cairo to address a conference on "The Rebirth of Pharmacognosy and New Frontiers in Natural Products as Drugs." We are very thankful to have such a great leader as our Grand Council Deputy, and we hope his trip and presentation both go very well.

October 7th was Pharmacy Day at ONU. Tours were conducted through the pharmacy college to prospective students and their parents. Kappa Psi was represented by several Brothers who served as tour guides and lab assistants for the different demonstrations. The following weekend was Homecoming, and again, our Alumni showed excellent support with a very good turn-out. Homecoming 1978 was again, a great success.

We have just completed our election of officers, and for this year they are:

Regent .....	Martin K. McNeill
Vice-Regent .....	Dennis H. Nisbett
Secretary .....	Christopher D. Tolliver
Treasurer .....	Daniel H. Muskoff
Pledgemaster .....	John A. Falkenback
Librarian-Historian .....	Clyde A. Oyer
Sports Chair .....	Ronald A. Mundziak
Social Chair .....	Hanley H. Wheeler, III
Rush Chair .....	Jeffrey L. McCracken

Coming up on December 1st and 2nd, we will host the Province V Interim Meeting. Also, in the spring, we will be the host to the Province V Convention during April 6th and 7th. We have much ahead of us, and we will make it all the best that we can.

In reply to the issue of women in Kappa Psi, a Little Sisters Program would win our wholehearted support. However, accepting women into our fraternity as actives would go against the basic ideals on which our fraternity was founded. We believe that our Brotherhood and the common ties of the pharmaceutical sciences serves to provide common binding force for us all. Women have their own pharmacy sororities, and there are even ones that have a co-ed membership policy. It is our opinion that we should remain unto ourselves and not permit women to join Kappa Psi.

This is my last article for my term as Librarian-Historian, and it has been a pleasure to serve in this office. Best wishes and good luck to all for this year.

**Chuck Rasch**

# GAMMA EPSILON UNIVERSITY OF NEBRASKA MEDICAL CENTER

Greetings from the Brothers and newly organized little Sisters of Gamma Epsilon. Our chapter is quite busy right now organizing and making arrangements for the Fall Conclave which we will be hosting this fall. We are striving to make this Province as productive and rewarding as our Spring Conclave last March, which we felt was a smashing success.

After Spring Province, the Gamma Epsilon chapter bid adieu to

its great group of seniors and elected new officers. The newly elected were:

Regent .....	Pat Bryant
Vice-Regent .....	Ed Hines
Secretary-Treasurer .....	Dave Schiessler
Chaplain .....	Steve Kirkegaard
Historian .....	Steve Richards
Rush Chairman .....	Varner Richards
Pledge Trainer .....	Keith Olsen

In the spring of 1978, the Gamma Epsilon chapter officially organized a little sisters chapter. At that time, nine girls were initiated, and four more will be included this fall. The little sisters hosted a successful rush party at a nearby lake early in July, with many brothers and prospective pledges participating in the festivities. In addition, the little sisters will help host the Fall Province here in Omaha.

Our chapter hosted a pool party in mid-July to further encourage possible pledges. Consequently, pledging has gotten off to a fantastic start this year. Fourteen new members have signed up so far and will be initiated in September. The pledges have kept busy working on pledge boards and, as a pledge project, have erected a Kappa Psi bulletin board in the commons area of the pharmacy school.

The Gamma Epsilon calendar has been full the last few months. In August, actives and pledges took a trip to Kansas City, where Larry Slater arranged for tickets to the Royals game. The chapter took charge of a booth at the State Fair in Lincoln in August, handing out pamphlets and answering questions about OTC and prescription drugs as well as about the profession of pharmacy itself.

The chapter has a full social calendar for the upcoming year, including a barn dance in September, an all-medical center (lack of) talent show in January, a ski trip, a Kappa Psi-faculty basketball game, a bon voyage party, as well as other activities. Also on the chapter agenda is a greater number of speakers for our meetings, and an expanded number of professional projects.

In closing, I'd like to encourage correspondence from our brothers, and ask for any suggestions for activities and projects that our little sisters can help us with. We also extend our invitation to any of our brothers who ever plan on being in Omaha to stop by and see us.

**S. Richards**

# GAMMA KAPPA CHAPTER SOUTH DAKOTA STATE UNIVERSITY

Last Spring, the Gamma Kappa Chapter activated nine new pledges. Tricia Tabor was elected as Sweetheart of the year and Dave Meyer was awarded Outstanding Active. This Fall Semester we have activated seven more pledges.

Socially, we have hosted a Valentine's Party, Med Party, Chili Feed and co-hosted an All-Pharmacy Pig Roast.

This past year, we have had professional speakers on Internship and Optometry. We co-sponsored the annual Heart Fund Drive in the Brookings area. Many of the Fifth-year Pharmics participated in the OTC program for the elderly on the use and abuse of over the counter medicines.

Athletically we engage in such intramural activities as basketball, football, softball, and volleyball.

The officers who were elected for this past year are the following:

Regent .....	Kevin Haarberg
Vice-Regent .....	Merl Nicholson
Secretary .....	Mark Traves
Treasurer .....	Roger Lesch
Historian .....	Chuch Van Hove
Chaplain .....	Steve Williams
Grand Council Deputy .....	Mr. Gary Van Riper

**Chuck Van Hove**

## GAMMA OMICRON CHAPTER UNIVERSITY OF OKLAHOMA

Gamma Omicron Chapter extends its greetings to all brothers of Kappa Psi. It was a busy summer for us at The University of Oklahoma Health Sciences Center, in Oklahoma City. As the fall semester begins we will be busy planning activities for the upcoming semester.

This summer on August 13th a Bar-B-Q was held at Dr. Robert Magarian's home, Gamma Omicron Grand Council Deputy. Plenty of beer and hamburgers were on hand. At the Bar-B-Q chapter relations were discussed with the officers of the Oklahoma Graduate Chapter. On August 27th we held a picnic/softball game with the graduate chapter at the Lion's Club Park in Norman, OK. The graduates won the softball game by a score of 8-2 aided by 19 in the outfield. The game was called after seven innings due to lack of mobility.

Also this summer, our Grand Council Deputy, Dr. Robert Magarian, professor of medicinal chemistry, was the honored recipient of the Baldwin Travel Studies Award. He spent two weeks this summer lecturing and visiting Oxford University and other universities in England. The brothers of Gamma Omicron wish to express their pride in our Grand Council Deputy.

At the last meeting of last spring semester new officers were elected for the upcoming year. The new officers are:

Regent .....	Paul Tyler
Vice-Regent .....	J. Denny Strickland
Secretary .....	Keith Dace
Treasurer .....	David Steele
Historian .....	Kurt Wuest
Sergeant At Arms .....	Mike Cochran
Pledge Trainer .....	Virgil Todd

For the upcoming school year we are planning a Rush Smoker on September 15th, at the Ramada Inn Central in Oklahoma City. We are anticipating a large pledge class for the upcoming fall. Discussed for the upcoming projects this semester are a hypertension screening program, a benefit party for the Childrens' Cerebral Palsy Center in Norman, and a pledge/member football game. We are hoping for a productive and rewarding semester, and another National Championship for the University of Oklahoma Sooners!

In closing the Brothers of Gamma Omicron are looking forward to a great centennial year, and the same for our fellow chapters.

**Kurt Wuest**

## DELTA DELTA CHAPTER UNIVERSITY OF HOUSTON

We regret having not submitted any news to the previous issue, but we do have a lot of information to pass along this time. Our smoker this semester was held at the indoor pool here at the University of Houston. Beer, sandwiches and soft drinks were enjoyed by both students and faculty, with the beautiful pool available to those who cared to take a dip. As a result of our recruiting efforts, twenty-four new pledges have elected to join our ranks.

We are proud once again to have organized pharmacy school block seating for the Cougar football games with our fraternity leading the section in various yells and cheers. Brothers Phil Boriskie and Luke Satterwhite deserve mention for their hard work they have put into this project. Our annual "Pill Bowl" against Phi Delta Chi is set for October 29, with brother Joe Rodriguez leading the team to a hopefully revengeful victory.

A new activity planned this fall is a Halloween costume party jointly held with Kappa Epsilon, the U. of H. pharmacy sorority. Also new in the planning is a basketball game against the brothers of Texas Southern University's Delta Theta chapter. Proceeds from the game will be donated to the pediatric ward of M.D. Anderson hospital. Another new activity we hope to initiate this fall is a hypertension screening project involving our university's students. Kappa Psi members will set up a couple of booths in the heavier traffic areas of school to take blood pressures and offer correct and valuable

information concerning hypertension.

On November 11, the Houston Cougars meet the Texas Longhorns in Austin. Many of our brothers will be in attendance, with a mixer set after the game with the brothers of the Gamma Gamma chapter there at the University of Texas. It is hoped that this occasion will continue through the years as an annual event.

Our annual banquet is set to be held December 1st at Gaido's seafood restaurant in Galveston with activities continuing next door at the Flagship hotel and club. We are pleased to have Grand Regent William Fitzpatrick scheduled to attend with all of our members looking forward to meeting this man who is truly a leader in Kappa Psi.

In closing, we would like to recognize the December 1978 graduates of our Delta Delta chapter. They are Phil Boriskie, Bill Coffey, Dan Faust, Manny Guillen, Barry Hodges, Joe Patlan, Larry Richards, Joe Rodriguez, Luke Satterwhite, and Mark Templet. To these and all Kappa Psi brothers we wish all the best of luck with health, success, and happiness throughout the coming new year.

**Barry Hodges**

## INDIANA GRADUATE CHAPTER

On October 14 following the Purdue-Ohio State football game, the Indiana Graduate Chapter held an open-house in the Pharmacy Building on the Purdue University Campus. The social climate was ideal as Purdue had just completed an overwhelming victory over the Buckeyes. More than 50 people (members, spouses, and friends) attended the open-house which represented the first time the graduate chapter had met since its initial chartering ceremony of last Spring. A brief business meeting was held at which time some additional committees were formed and initial plans were made for activities to be held in the Spring of 1979.

**K.W. KIRK**

## OKLAHOMA GRADUATE CHAPTER

Greetings to all Brothers of Kappa Psi. Graduate Officers elected for 1978-1979 are:

Regent .....	Tom Bishop
Vice-Regent .....	Matt Richard
Secretary .....	Howard Tyler
Treasurer .....	Don Arnold

On August 27, in Norman, the OU Graduate Chapter hosted the Fourth Annual Kappa Psi Summer Picnic for the Brothers of Gamma Omicron and their families. Food, fellowship and a keg or two preceded the traditional softball game. The old grads were victorious relying on skill, age and a ten-man outfield.

The Graduate Chapter congratulates Gamma Omicron Grand Council Deputy Dr. Robert Magarian. Dr. and Mrs. Magarian spent two weeks at Oxford University this summer on a University of Oklahoma Baldwin Travel-Study Grant.

**Howard Tyler Jr.**

## SOUTHWESTERN GRADUATE CHAPTER

The Southwestern Graduate Chapter held it's annual meeting October 21, 1978 at the Continental Motel in Oklahoma City, Oklahoma during the Delta Beta Chapter's annual homecoming party. New officers were elected to the posts of President and Executive Secretary-Treasurer. The new president for 1978-1979 is Johnny Porter of Richardson, Texas and the Executive Secretary is Darrell Mellor of Stillwater, Oklahoma. Also on the agenda with the election of a delegate to the 39th Grand Council Convention next August in Scottsdale, Arizona. The elected delegate is Brother David Beine of Ponca City, Oklahoma.

The graduate chapter is also beginning to gear up for the Province VII convention to be held next spring in Oxford, Mississippi.

## DRUG INTELLIGENCE & CLINICAL PHARMACY

A monthly, nonprofit, refereed, interdisciplinary, independent journal dedicated to the advancement of clinical pharmacy.

**Provides** information which will enable members of the health professions to become more sophisticated in their knowledge of drugs.

**Contents** include: reviews, reports and case studies on all aspects of drug use; drug stability, technology and bioavailability as they relate to clinical practice; studies and reports on the practice of pharmacy, the emerging role of the clinical pharmacist, patient compliance etc.

**Regular features** include: drug evaluation data; physical assessment (basic knowledge for drug monitoring); DIAS rounds (reports from a DIC); drug actions, interactions and reactions; health care sociology; literature review; letters.

**Subscriptions** start in January or July; regular US \$18.00/yr, student US \$12.00/yr.

## PharmaCE™ 79 CE Program

This program provides an opportunity to earn 16-24 continuing education credits in your own home. Each month the prestigious journal **Drug Intelligence and Clinical Pharmacy** publishes multiple choice test questions on certain of its articles. The questions and the suitability of the articles for CE are validated by a team of six educational consultants. No time limit to complete the tests; participants may enroll and submit tests at any time during the program. Two hours of CE credit are awarded for each successfully completed test and a certificate of participation is awarded with completion of the required credits. Request a sample copy of *Drug Intelligence and Clinical Pharmacy*. Information on PharmaCE™ seminars for continuing education credit will be sent on request.

*PharmaCE™ 79 is approved by the ACPE as a provider of 24 contact hours of continuing education; approval pending in all states requiring CE.*

### BIOPHARMACEUTICS AND PHARMACOKINETICS

- #43 HANDBOOK OF BASIC PHARMACOKINETICS by Ritschel, 384 pp., \$16.00
- #40 BIOPHARMACEUTICS AND RELEVANT PHARMACOKINETICS by Wagner, 375 pp., \$15.00
- #41 FUNDAMENTALS OF CLINICAL PHARMACOKINETICS by Wagner, 475 pp., \$37.50
- #50 PHARMACOKINETIC SLIDE RULE by Straughn, \$6.00

## 39TH GRAND COUNCIL CONVENTION

KAPPA PSI CENTENNIAL CELEBRATION

AUGUST 5-10, 1979

SCOTTSDALE, ARIZONA

### PATRON ADVERTISING

The total cost of the Centennial Celebration can not be paid by registration fees alone. Therefore, we are calling upon all our chapters to sell advertising in the Kappa Psi Centennial Commemorative Book. Each chapter is asked to sell a minimum of \$300 in advertisement. A 50% rebate will be made by the national on all ads in excess of \$300 so this can be an incentive to the individual chapter to increase their contributions beyond the minimum level.

## PATRON ADVERTISING CONTRACT
